South Dakota

Trophy hunting huge parcels of private ground allows me to manage wild game in South Dakota to produce excellent trophy quality. I hunt tens of thousands of acres of privately owned land with the exclusive hunting rights where you will see a lot of game.

Everyone knows that South Dakota has some of the finest pheasant and antelope hunting in the world. What most people don't know is that South Dakota is one of the best kept secrets in huge whitetail and huge mule deer hunting destinations in North America. I also take buffalo from several private herds throughout the state including the oldest private herd in the world. I offer the best prairie dog/varmint hunting in the country and predator hunting is conducted year round. We now offer excellent spring goose hunting.

"I cannot wait to get back out to hunt deer with him in South Dakota and if I ever go back to Alaska, he is the only guy I will go with."

South Dakota and Alaska

*When researching a hunt, you should ask to speak to **all** of the clients who hunted the same time you are considering hunting the previous year. It is foolish to consider booking a hunt with an outfitter before you speak with hunters who have hunted the same time and place during the previous season. It is important to know ahead of time what you are getting for your money. I am proud of the attention I give my clients before, during, and after the hunt. Most importantly, don't consider booking a hunt with anyone that is not willing to give you the names and numbers and/or email addresses for **"All"** of the clients from the previous season.*
